

SYNC 2: 'KEEPING IT SIMPLE'

With SYNC 2 we have made voice-commanding your infotainment system simpler than ever before. Here's how you can control it in a few easy to remember steps:

USING THE RADIO:

Using the radio just got simpler... no need for scrolling through endless channels manually.

Say 'Radio' to activate this device

- Want it to tune into your favourite channel then say **'Tune to 96.3 FM'**
- Already have your favourite stored then say **'Tune to DAB 1/ Preset 1'**

USING THE NAVIGATION SYSTEM:

Getting from A to B couldn't be simpler.

Don't know where you are then ask:

- 'Where am I?'
- 'Where are we?'

Want to get somewhere then just say: 'NAVIGATION' then

- 'Destination address'
- 'Destination junction'
- 'Destination place of interest'

Want to see where you are then just say:

- 'Show map'

Want a different map view on-screen, simply say:

- 'Show 3D'
- 'Show route summary'
- 'Zoom street'

USING YOUR PHONE ON THE GO:

Don't let getting in the car stop you from carrying on with your busy life. Lots of your phone's functionality can be controlled by your voice using SYNC.

From the main menu, you can say things like:

- 'Go to hands-free'
- 'Call Jack Wilson'
- 'Call Sophie Davis at work'
- You can also say **'dial'** to enter a phone number

Don't want to be disturbed or need to go on hold, simply tell SYNC that:

- 'Do not disturb'
- 'Put call on hold'

During a call you can say commands like:

- 'Mute on'
- 'Hold call'
- 'Join calls' if you want to connect two lines together

To read text messages, say 'messages', then say:

- 'Listen to text message/SMS'
- 'Forward text message to Chris'
- 'Reply to text message'

USING CLIMATE CONTROL:

Want to set the perfect temperature on the go, now you can command the car to do it.

Say 'Climate' to activate this device. Once you're in Climate, you can say things like:

- 'Air conditioning on'
- 'Climate. Set Temperature to 25 degree'
- 'Climate my temperature on/off'
- 'Max A/C'
- 'Front Defog on/off'
- 'Face/Floor Ventilation on/off'

USING BLUETOOTH MUSIC STREAMING:

SYNCing your music is simple with Bluetooth. Control your phone's music using voice commands.

From the main menu say:

- **'Play song'** and then the name of a song title
- **'Play playlist'** and the name of the playlist, then 'play'
- **'Browse'** – to browse through your media device

USING MICHELIN GUIDES:

Fancy something to eat – SYNC can help. Our Michelin guide is packed with over 50 cuisines and restaurant categories to choose from – Thai to Tapas to Cajun to Caribbean – you can pretty much choose whatever type you want.

To get started simply say:

- **'I'm Hungry'**, then select the restaurant you want and set as destination
- 'Bistro' - 'Pub' - 'French restaurant' - 'Café' - 'Gelato' - 'Cake shop'

POINTS OF INTEREST:

Your SYNC system is a mini-directory, so if you fancy a bit of culture, or you need some pet food for your puppy, just ask SYNC – the list is virtually endless.

Say 'find' and then what you want:

- 'Fuel station' - 'Accommodation' - 'ATM' - 'Theme park' - 'Nightclub' - 'Airport' - 'Pet shop' - 'Beach' - 'Museum' - 'Eifel Tower' - 'London Eye'
